**DAHLE NORTH AMERICA ANNOUNCES SANDY CORKER
AS DIRECTOR OF GOVERNMENT SALES**

Peterborough, NH, May 1, 2009 – Security standards for federal and state agencies regarding document destruction continually evolve. To assist these agencies in purchasing the right shredder for their security needs, Dahle North America is proud to announce the recent appointment of Sandy Corker as their new Director of Government Sales.

Sandy will be responsible for increasing Dahle shredder sales to Federal and Government agencies as well as maintaining Dahle's Government Services Administration (GSA) contract. Throughout the year, Sandy will accomplish these goals by attending industry related trade events as well as meeting with State and Government agencies to educate their personnel on Federal security requirements for document destruction.

“We are very excited to have Sandy as part of the Dahle team,” said Scott Prokop, VP and General Manager, Dahle North America, Inc. “We believe her extensive background in government sales, as well as her knowledge of paper shredders will improve our positioning in the government market.”

With over thirty six years of sales experience, Sandy arrives at Dahle highly qualified and well established in the shredder industry. She's won multiple sales awards including Salesperson of the Year, Top Seller and Top Producer of the Year. Her experience includes Government Contract Manager at Swintec and Schleicher and Co. of America and most recently as Vice President of Government Sales at HSM of America.

Dahle North America, Inc. is a fully integrated manufacturer and distributor of business machines and office products with a brand name recognized for quality and precision. Dahle markets more than 300 products, including professional shredders, paper cutters and trimmers, scissors, letter folders, and pencil sharpeners, for the government, office, and home.

For more information on Dahle's GSA products please call (866) 248-7902 or visit their website at www.dahlegov.com.
