

For Immediate Release

**DAHLE OFFICE SHREDDERS:**  
***Keeping Medical Information Private***

*Peterborough, NH, October 1, 2009 –*

With the widespread use of networked printers and fax machines, confidential medical information is constantly being produced throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. Dahle Office Shredders are designed to accommodate the needs of most busy offices by shredding between 400 and 2,000 sheets of paper per day. This is the perfect device for properly destroying Protected Health Information (PHI) before it's discarded.

Dahle Office Shredders use the latest technology. Some models feature full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to empty the box or change the bag. Normal office functions will not be bothered by the use of your Dahle Office Shredder. Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet and provides whisper quiet operation. With its ease of use and state-of-the-art capabilities, the Dahle Office Shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.

Dahle North America, Inc. is a fully integrated manufacturer of innovative office products and equipment with a brand name recognized for quality and precision. Dahle markets more than 300 products, including paper shredders, paper cutters and trimmers, scissors, pencil sharpeners, and Novus staplers.
