

For Immediate Release

DAHLE INTRODUCES NEW MULTI+MEDIA SHREDDERS:

Because Confidential Information Can Be Found On More Than Just Paper

Peterborough, NH, March 1, 2006 –

Confidential information can be found in many different formats, so why not have a shredder that can destroy them all? With this in mind, Dahle's developed a new generation of shredders that can destroy more than just paper. The 30406 & 30414 Multi+Media Shredders are designed to shred between 2,000 and 8,000 sheets of paper per day as well as CDs, DVDs, and floppy disks. The shredder's contemporary design and large storage capacity make them a nice addition to any large office, copy room or communications center.

The ability to shred multiple media formats is made possible by a chain driven 1 1/4 Hp motor that provides slip free power to the cutting mechanism. These cutting cylinders are the core of the shredder and are milled from a solid block of German steel. The result is a machine with strength, power, and the ability to handle all of your information

destruction needs.

"Dahle's new Multi+Media shredders are our most versatile shredders yet," said Scott Prokop, VP, Dahle North America, Inc. "Now we offer the ability to shred all of your confidential data with just one machine."

Dahle incorporated the latest technology when developing the Multi+Media Shredders. Standard operator functions are made possible through an easy to use control pad which allows you to power the unit up and place it in either forward or reverse. The wooden cabinet not only houses the shredded waste but also deafens the noise to allow for whisper quiet operation. Not sure when your waste bag is full, your shredder will inform you through its audible and visible warning indicators. Once your shredder is empty and the door is closed, it will resume normal operation. Dahle Multi+Media Shredders are available in a strip cut (30406) and a cross cut (30414) and retail for \$2395 and \$2895 respectively.

Dahle North America, Inc. is a fully integrated manufacturer and distributor of business machines and office products with a brand name recognized for quality and precision. Dahle markets more than 300 products, including paper shredders, paper cutters and trimmers, scissors, letter folders, and pencil sharpeners, for the home, office, and art markets.
