## **Dahle's Six Foot Premium Rolling Trimmer: Superior Large Format Cutting - Now Offered with a Stand**

*Peterborough, NH, June 1, 2015 –*

Dahle, a company known for their precision cutting products, is introducing their new 472 S Premium Rolling Trimmer. The 472 S offers six feet of superior cutting performance and the ability to cleanly cut oversize banners, mat board, and fine art paper. It features a ground rotary blade and a self-sharpening cutting system that cuts and sharpens in both directions. This trimmer includes a space saving, metal stand with paper catch. The stand is set at the perfect height for trimming, and is ideal for those with limited work space.

As with all Dahle products, safety is at the forefront of design. To keep hands in the safe zone, the trimmer's blade is almost entirely enclosed which virtually eliminates the chance of injury. In the event that the blade does need to be replaced, the cutting head is removable and the user never has to touch the blade. The included metal stand (Dahle 799) which can be purchased separately, offers a secure, stable base for this six foot trimmer. The Dahle 472 S rolling trimmer is the preferred choice among professional photographers, sign makers, and print & copy shops.

"The 472 S will prove to be a customer favorite," said Chris Jackson, Marketing Manager, Dahle North America, Inc. "By combining a space saving stand to our popular 472 rolling trimmer, we are adding value, and convenience to this high-performance cutter."

Dahle North America, Inc. is a fully integrated manufacturer of innovative office products and equipment with a brand name recognized for quality and precision. Dahle markets more than 300 products, including paper shredders, cutters and trimmers, scissors, pencil sharpeners, and Novus staplers.
