**DAHLE NORTH AMERICA UNVEILS NEW ECONOMY LINE OF
PAPER TRIMMERS CALLED VANTAGE®**

Peterborough, NH, Sept. 10, 2001 – Recently, Dahle North America unveiled a new line of paper trimmers called Vantage®. This economical line is perfect for every day use in the home or office environment and is the latest in a long line of precision trimmers offered by DAHLE. The Vantage® Trimmer is extremely versatile and can be used to trim documents at work, crop photographs, and all sorts of crafting ideas. These trimmers are economical and convenient, without sacrificing the precision that comes with the DAHLE name.

“We’re very excited to offer the new Vantage® line of trimmers,” said Scott Prokop, VP and General Manager, DAHLE North America, Inc. “DAHLE’s Vantage® Trimmer is a quality product that’s safe and easy to use, as well as affordable. We believe it will be a big success in the art, office, and educational markets.”

The Vantage® Trimmer has an automatic paper clamp that will securely hold your work in place and prevent it from shifting. For safety purposes, there is a spring located at the end of the blade that eliminates the chance of it accidentally falling down. This blade is composed of solid steel and is self-sharpening which guarantees a precision cut every time. Vantage® Trimmers have a sturdy metal base and are available in 12”, 15”, and 18” cutting lengths. With the release of the new Vantage® Trimmer, DAHLE once again proves that quality doesn’t always have to come with a price!

DAHLE North America, Inc. is a fully integrated manufacturer and distributor of business machines and office products with a brand name recognized for quality and precision. DAHLE markets more than 300 products, including shredders, paper cutters and trimmers, scissors, letter folders, and pencil sharpeners, for the home, office, and art markets.
