

High Security Shredder

MODEL 20394 High Capacity Shredder

The Dahle 20394 High Security Shredder is NSA/CSS 02-01 approved and supports the top-secret shredding needs of military and government agencies. It features a powerful chain driven motor, an automatic EvenFlow Lubricator, and integrated jam protection to eliminate frustration. This P-7 shredder produces a 1 mm x 4.7 mm particle size and holds up to 50 gallons of shredded waste. It's German engineered and guaranteed to provide many years of trouble free operation.

EvenFlow Lubricator

Just like any fine-tuned machine, your shredder needs to be properly oiled to run at peak performance. This shredder is equipped with an EvenFlow Lubricator which provides slow, continuous oil across the entire cutting mechanism.

Precision Milled Cylinders

This shredder features solid cutting cylinders milled from a bar of German Solingen steel. They're perfectly aligned in an all-steel frame. The result is a machine with strength, power and the ability to handle all of your data destruction needs.

Jam Protection

Fewer things are more frustrating than a paper jam. With automatic jam protection, this shredder prevents those annoyances. If sheet capacity is exceeded, the motor automatically stops and reverses to push the paper back out. This prevents a jam and makes it easy to re-feed fewer sheets.

Product Features

NSA/CSS 02-01 Approved for P-7 Shredding

-For safe destruction of top-secret documents

Automatic EvenFlow Lubricator

-Provides continuous oil across the cutting cylinders
-Ensures peak shredding performance

Precision Milled Cutting Cylinders

-Milled from a solid bar of steel for durability
-Ensures a perfectly matched set of cylinders

Automatic Jam Protection

-Reduces paper jams and eliminates frustration
-Prevents shredder down time

Chain Driven Motor

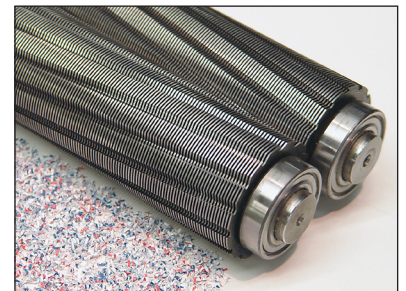

-Steel chain and gears for slip-free power
-Maximizes sheet capacity and performance

German Engineered

-Quality build with trouble free operation

The 1 gallon EvenFlow Lubricator provides continuous lubrication for peak performance.

Dahle High Security cutting cylinders reduce a sheet of paper to over 15,500 pieces.
