

Small Office Shredder

MODEL 40330 Small Office Shredder

The Dahle 40330 Small Office Shredder supports the highly sensitive document destruction needs of busy offices with 1-3 users. It features an automatic EvenFlow lubricator, SmartPower energy management, and integrated jam protection to eliminate frustration. This P-6 shredder produces a 1/32" x 7/16" particle size and holds up to 23 gallons of shredded waste. It's German engineered and guaranteed to provide many years of trouble free operation.

EvenFlow Lubricator

Just like any fine-tuned machine, your shredder needs to be properly oiled to run at peak performance. This shredder is equipped with an EvenFlow Lubricator which provides slow, continuous oil across the entire cutting mechanism.

Precision Milled Cylinders

This shredder features solid cutting cylinders milled from a bar of German Solingen steel. They're perfectly aligned in an all-steel frame. The result is a machine with strength, power and the ability to handle all of your data destruction needs.

SmartPower

This intuitive system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after 30 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

Product Features

EvenFlow Lubrication System

- Continuous oiling across the cylinders
- Maintains peak shredding performance

Precision Milled Cutting Cylinders

- Milled from a solid bar of steel for durability
- Ensures a perfectly matched set of cylinders

SmartPower Energy Management

- Reduces energy cost / saves electricity
- Environmentally friendly

Automatic Jam Protection

- Reduces paper jams and eliminates frustration
- Prevents shredder down time

German Engineered

- Quality build with trouble free operation

User-Friendly Convenience Features

- Automatic On/Off for quick & easy power up
- Bin Full Auto-Off for bag change notifications

EvenFlow Lubricator evenly oils the cutting cylinders to ensure peak performance.

The cutting cylinders are milled from a solid bar of German Solingen steel for strength.
