

Office Shredder

40414 Dahle Professional Shredder

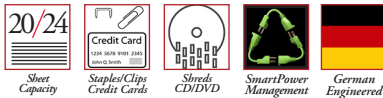

With the widespread use of network printers and fax machines, confidential business information is constantly being printed throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. This shredder is designed to accommodate the needs of most busy offices. It's a perfect shredder for destroying marketing plans, health records, and any other confidential information that should not be seen by others.

The Dahle 40414 offers a 10 1/4" feed opening and can shred up to 20/24 sheets of paper at a time. It features full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door is open, and Auto Reverse to prevent an over-feed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to change the bag.

eration. With its ease of use and state-of-the-art capabilities, this shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.

Those interested in conserving energy as well as reducing electrical costs will enjoy the revolutionary SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity.

Dahle's shredders are German Engineered using the latest technology and finest materials. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet and provides whisper quiet op-

Features

- Feed Opening: 10 1/4"
- Sheet Capacity: 20/24
- Shred Size: 1/8" x 1 9/16"
- Security Level: P-4
- SmartPower Management
- German Engineered

Dahle Professional shredder with built in user-friendly opening for CD/DVD destruction.

The easy-to-use command dial controls all of the shredder's functions such as power up, reverse, and continuous run.

In order to provide slip free power to the cutting cylinders, a steel chain & gears connect the two for maximum capacity.
