

Small Department Shredder

40514 Dahle Professional Shredder

Known for its power and waste capacity the Dahle Small Department Professional Shredder is designed to accommodate the needs of most small departments. This cross-cut machine offers a 1/8" x 1 9/16" particle size and is able to shred to security level P-4 standards. It's a perfect shredder for destroying marketing plans, health records, and any other confidential information that should not be seen by others.

Dahle's 40514 is built with a 12" feed opening and can shred up to 20/24 sheets of paper at a time. This machine can accommodate both letter and legal size paper with ease. All you need to do is decide what document to shred and the shredder will take care of the rest.

Energy conservation continues to be a top priority at Dahle. Each shredder comes equipped with the revolutionary SmartPower Energy Management System. This multi-

stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

In order to provide slip free power to the cutting cylinders, a steel chain and gears connect the two components and provide maximum shredding capacity. Removing staples and paper clips are a thing of the past. Dahle shredders can easily accommodate these items without harming the machine and saving you time in the process.

Dahle's shredders are German Engineered using the latest technology and finest materials. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.

Features

- Feed Opening: 12"
- Sheet Capacity: 20/24
- Shred Size: 1/8" x 1 9/16"
