

DAHLE SUPER SHEARS

PREMIUM SERIES

Dahle's Super Shears are designed to accommodate the needs and comfort for both personal and professional use. The handles are made of tough ABS plastic that gently forms around your fingers. This comfortable fit reduces pressure points and fatigue during extended use.

These commercial grade shears can handle the toughest material as well as the most delicate fabric. They feature Solingen steel cutting blades that are machine ground and hardened to 56 Rockwell. This specification is considered the optimal hardness of metal for

maintaining a sharp edge. The blades are screw fastened and can easily be tightened to your personal preference.

Super Shears are available in 4"-10" sizes. This line also features an 8" All-Around Shear that has an aggressive micro-toothed cutting edge that can be used while cooking, hunting, or anywhere and aggressive shear is needed!

SUPER SHEARS

- ▶ Machine ground blades are hand finished and hardened to 56 Rockwell
- ▶ Solingen steel blades are rust resistant
- ▶ Double ground blades offer precision trimming of thicker material
- ▶ Handles are made of tough ABS plastic and are virtually unbreakable
- ▶ Screw fastened blades for easy tightening

Item 50038 features an aggressive micro-toothed cutting edge that will cut through some of the toughest material.

Double ground blades offer precision trimming of thicker material
