*Will shred confidential information on multiple media formats such as Paper, CDs & DVDs.*

*Contemporary wooden cabinet houses shredded waste and deafens noise for quiet operation.*

Confidential information can be found in many different formats, so why not have a shredder that can destroy them all? With this in mind, Dahle's developed a new generation of shredders that can destroy more than just paper. The 30406 & 30414 Multi+Media Shredders are designed to shred between 2,000 and 8,000 sheets of paper per day as well as CDs & DVDs. The shredder's contemporary design and large storage capacity make them a nice addition to any large office, copy room or communications center.

The ability to shred multiple media formats is made possible by a chain driven 1 ¼ Hp motor that provides slip free power to the cutting mechanism. These cutting cylinders are the core of the shredder and are milled from a solid block of German steel. The result is a machine with strength, power, and the ability to handle all of your information destruction needs.

Dahle incorporated the latest technology when developing the Multi+Media Shredders.

Standard operator functions are made possible through an easy to use control pad which allows you to power the unit up and place it in either forward, reverse, or continuous run. The wooden cabinet not only houses the shredded waste but also deafens the noise to allow for whisper quiet operation. Not sure when your waste bag is full, your shredder will inform you with its audible and visible warning indicators. Once your shredder is empty and the door is closed, it will resume normal operation.

Our commitment to our products continues long after your original purchase. We take great pride in our extensive dealer network located throughout the U.S. and Canada. Dahle dealers are hand selected and share the common goal of providing the highest quality products and services to meet the needs of our customers. If you're not sure who to call about an issue, contact Dahle's Customer Service Department at (800) 995-1379. Our team of professionals will take care of your problem or put you in touch with one of our representatives that can.
