The electronic control panel allows for auto on/off, continuous run, and reverse operation

Rubber shock mounts reduce vibration and provide extremely quiet operation.

With the widespread use of networked printers and fax machines, confidential business information is constantly being printed throughout the workday. It's important to have a powerful shredder located nearby to easily dispose of this information. Dahle Office Shredders are designed to accommodate the needs of most busy offices by shredding between 400 and 2,000 sheets of paper per day. This is the perfect device for properly destroying marketing plans, health records, and any other confidential information that should not be seen by others.

With eight models to choose from, Dahle Office Shredders are built with a 10" feed opening to accommodate both letter and legal size paper. This range offers two strip cut models (20506/20606EC) and four cross cut models (20514/20612EC / 20614EC / 20630EC) that are able to shred to the standards of security level 2, 3, 4 or 5. The 20606EC shredders feature a powerful 1 Hp motor capable of shredding 38 sheets of paper at a time.

Dahle Office Shredders use the latest technology. Some models feature full electronic capabilities including such safety features as Automatic Shutoff when the cabinet door opens and Auto Reverse to prevent an overfeed. Automatic On/Off and Bag Full Auto Off are features that offer both convenience and satisfaction in knowing you will be notified when it's time to empty the box or change the bag.

Normal office functions will not be bothered by the use of your Dahle Office Shredder. Each cutting cylinder is encased in an all-steel frame and sits on rubber shock mounts. It's this design that reduces vibration through the cabinet and provides whisper quiet operation. With its ease of use and state-of-the-art capabilities, the Dahle Office Shredder will soon become a favorite meeting place and quite possibly the water cooler of the future.

OFFICE SHREDDER MODELS

20506

¼" Shred Size
25/30 Sheet Capacity
