*State-of-the-art electronics conveniently turns the shredder on when shredding and then off.*

*Desk side placement makes it easy to shred without leaving your workstation.*

It's all about convenience with a Dahle Personal Shredder. Whether you're an executive, a secretary, or someone looking for added security at home, these machines are small enough to accommodate any workspace yet powerful enough to get the job done. Dahle's smallest line of shredders are designed for shredding up to 100 sheets of paper per day and are perfect for destroying bank statements, credit applications and financial records. These shredders can be conveniently placed at arms length so you never have to leave your desk to properly dispose of confidential documents.

Dahle Personal Shredders are built with a 8 $\frac{3}{4}$ " feed opening to accommodate both letter and legal size paper with ease. These machines are small enough to fit under your desk yet large enough to handle 8 gallons of shredded waste. This range offers a strip cut (model 30104) and a cross cut (model 30114) shredder which are able to shred to security level 2 or 3 standards.

These machines feature Automatic On/Off operation that uses an electronic sensor to turn the machine on. All you have to do is position your document in the feed opening and the shredder will take care of the rest. Bag Full Auto Off is another convenient function that notifies you when the shred bag is full and needs to be changed. It's these state-of-the-art features that save you time and take the burden out of shredding your documents.

Dahle's Personal line of paper shredders are made in Germany using the latest technology and finest materials. Each component is manufactured and assembled with precision from over 20 years of experience. Dahle shredders use solid cutting cylinders milled from German Solingen steel and are guaranteed to last a lifetime. The end result is a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble free operation.
