

Specialty Cutting Tools

Not all projects can be cut on standard size trimmers. For these large format applications, Dahle has created a line of Specialty Cutting Tools. These industrial sized cutters are designed to cut large amounts of paper with your safety in mind. Each cutter has built in features that will make your cutting task a safe and pleasurable experience. Dahle Specialty Cutting Tools are manufactured in Germany and can be found in art departments, custom frame shops, and print & copy centers.

Workshop Guillotines

Designed for large format applications, these trimmers sit on top of permanent metal stands and offer a cutting length of 32" and 43". A self sharpening ground steel blade makes cutting matboard, foamcore and up to 30 sheets of paper easy. The adjustable hand crank and lockable T-square ensure you re-

ceive precise results each and every time. For safety these cutters provide a lockable place to secure your blade and prevent unauthorized use. An acrylic safety shield separates your hands from the cutting edge to prevent the chance of an injury. A fold up cut-off shelf provides a place for your waste.

Special Purpose Cutters

With similar design and function to the Workshop Guillotines, Dahle's Special Purpose Cutters are table mounted and made of a durable laminated wood base. These cutters feature a metal fan guard, manual paper clamp, and a scale bar that allows for mounting the lockable T-square on the top or bottom. Special Purpose Cutters are available in 30", 36" and 42" cutting lengths and make easy cutting of matboard, foamcore and up to 40 sheets of paper at a time.

Stack Cutters

Dahle Stack Cutters are manually operated but make ease of cutting up to 700 sheets of paper at a time. Acrylic safety shields can be found on either side of the blade and will not allow the blade to move while they are in the up position. Once the safety shield is in place, you have the ability to cut cleanly through 200, 500 or 700 sheets of paper with very little effort. This clean burr free cut through such a large stack of paper is made possible through a ground Solingen Steel blade and a paper clamp that places even pressure across the entire cutting surface. A self-locking spindle driven backstop allows for minute adjustments to your cutting measurements. These cutters can be mounted on any secure table surface or on the optional floor stands. They are available in 17" and 18" cutting lengths.

WORKSHOP GUILLOTINES

- Cuts up to 30 sheets of paper at a time
- Industrial sized cutter equipped to handle large format work
- Ground self-sharpening blade made of Solingen Steel is lockable to prevent injury
- Acrylic safety shield separates hand from blade
- Manual foot clamp holds work securely in place and prevents shifting
- Includes metal floor stand

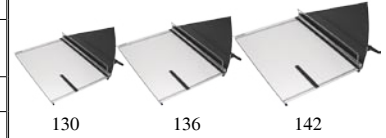

Item	Cut Length	Capacity	Dimensions
580	32"	30 Sheets	36" x 33 1/2"
585	43"	30 Sheets	53" x 41"

SPECIAL PURPOSE CUTTERS

- Cuts up to 40 sheets of paper at a time
- Perfect for cutting larger thicker material such as matboard and poster board
- Ground self-sharpening blade made of Solingen Steel is lockable to prevent injury
- Metal guard separates hand from blade
- Lockable T-Square guide assures accuracy
- Durable laminated wood base with 1" grid

Item	Cut Length	Capacity	Dimensions
130	30"	40 Sheets	34 1/2" x 24"
136	36"	40 Sheets	40 1/2" x 34"
142	42"	40 Sheets	46 1/2" x 34"

STACK CUTTERS

- Cuts large stacks of paper cleanly and evenly
- Built in safety cover prevents injury
- Ground upper blade
- Quick action clamp holds work securely and evenly across the entire surface
- Spindle driven self-locking backstop (846-848)
- Optional floor stands available

Item	Cut	Capacity	Table Size	Floor Stand
842	17"	200 Sheets	28" x 23 1/4"	712
846	17"	500 Sheets	30" x 25 1/2"	712
848	18 1/2"	700 Sheets	27 1/2" x 32"	718
