CRD DISTRIBUTION FORMS PARTNERSHIP WITH DAHLE

Offering Document Security & Professional Service to Canada

Peterborough, NH, October 24, 2006 –In a recent partnership with Dahle North America, CRD has become the sole distributor of Dahle Professional Shredders in Canada. CRD was established to strategically market Dahle shredders to all Canadian Provinces and Territories. CRD's product foundation is Dahle shredders and they are already making plans on increasing staff and product lines. With over 15 years of experience in the office equipment industry, CRD is Dahle's only source to meet the document destruction needs of Canada.

“We are pleased to align ourselves with a professional distributor such as CRD,” says Scott Prokop, VP and General Manager, Dahle North America. “Their experience and knowledge of the Canadian marketplace will help facilitate the growth of the Dahle brand and bring great success to both companies.”

CRD's primary focus is to promote security awareness and provide service that exceeds customer expectation. They offer the entire line of Dahle Shredders to include Type II and Type II (Level 6) which the Government of Canada has approved for document destruction of Secret, Top Secret and Protected “C” information. CRD offers full support and service of all Dahle shredders long after the original purchase.

All Dahle shredders are engineered in Germany with fine craftsmanship and attention to detail. Machines are factory tested before release and meet the strictest safety standards. Dahle offers over 40 models to exceed your document security needs.

For more information on purchasing a Dahle Professional Shredder in Canada, please contact CRD Distribution at (877) 974-3678 or visit their website at www.crddistribution.ca.
