Dahle North America's Rolling Trimmers: *The Ultimate In Precision and Safety*

Peterborough, NH, October 5, 2005 –

Rolling Trimmers are the new generation of paper cutters. Designed for safety and accuracy, the cutting blades are encased in a plastic housing that virtually eliminates the chance of personal injury. The rotary action of these trimmers allow the blade to cut in either direction and sharpen itself as it cuts. It's this self sharpening action that produces a clean burr-free cut and guarantees many years of smooth precise cutting. Dahle Rolling Trimmers are available in the following three ranges:

Personal Rolling Trimmers- Dahle's Personal Trimmers are lightweight and portable so they can be conveniently taken anywhere. These trimmers are equipped with a ground self-sharpening blade that cuts in either direction and an automatic paper clamp to hold your work securely in place. With a cutting capacity of up to 7 sheets of paper at a time, this trimmer is perfect for cutting paper and trimming photographs. Dahle Personal Rolling Trimmers are available in 9", 12" and 18" cutting lengths and are a popular choice among photographers, craft enthusiasts and office professionals.

Professional Rolling Trimmers- Dahle's professional series of rolling trimmers are designed for heavy duty applications where precision is essential. These trimmers are equipped with a ground self-sharpening blade that cuts in either direction. Most models in this series have a cutting capacity of up to 20 sheets of paper at a time and are perfect for cutting paper, trimming photographs, and large format printing. These trimmers can be wall mounted and the two larger sizes have optional floor stands. Dahle Professional Rolling Trimmers are available in 14", 20", 28", 37" and 51" cutting lengths and are a popular choice among professional photographers, print shops and graphic design agencies.

Premium Rolling Trimmers- Dahle's Premium Rolling Trimmers are designed for heavy duty applications. Whether you are cutting matboard or a single sheet of paper, you can expect to receive the same burr free cut each and every time. This cutting capacity is made possible by a thick walled square aluminum guide rod which provides maximum strength with minimal side movement of the cutting head. Floor stands are available for the two larger sizes or the trimmers can be placed on a table or mounted on the wall. Dahle Premium Rolling Trimmers are available in 14", 20", 26", 36" and 51" cutting lengths and are a popular choice among professional photographers, picture framers, and print and copy shops.
