

Pencil Sharpeners

Rotary Series

DAHLE

When creativity strikes your pencil needs to be ready! With many shapes and sizes to choose from, Dahle offers many solutions to insure that you're never scrambling to sharpen your creative instrument. These professional sharpeners will sharpen graphite pencils as well as oversized colored wax pencils.

It's all about control with Dahle's rotary pencil sharpeners. With the twist of a dial you can set the degree of sharpness for your pencil. Whether you need a fine tip or a blunt edged point, Dahle's Automatic Cutting System sharpens to your personal preference then spins freely to prevent over sharpening. These sharpeners not only give you the optimal results you desire but they also save lead.

Standard graphite or oversized artist pencils can be accommodated through the sharpener's extra large pencil opening. The cutting blades can also be removed and cleaned to prevent any waxy buildup. A mounting clamp is included but not necessary for portable sharpening.

Features

- Fluted cylinder blade contains 12 precision ground edges for even sharpening
- Automatic Cutting System sharpens lead evenly and prevents over-sharpening
- Point adjuster for sharp or blunt tip
- Easy to clean blades are perfect for use with graphite and colored pencils
- Precision cutting blades are Solingen Steel
- Accepts oversized artist pencils
- Easy to clean transparent shavings cup
- Mounting clamp included

Coated barrel grips hold the pencil securely as pencil is pulled in and sharpened.

The sharpening blade can easily be removed and cleaned when using colored wax pencils.
